
EMPLOYMENT

iOS Developer, Middle	GlobalLogic	
Glucose tracker app (Autumn 2021)		
<ul style="list-style-type: none">Implemented delete account feature; support real-time data transfer to iWatchRewrote 60% application on SwiftUICreated log parser; log analyzer		
Headset control app (Autumn 2020 - Summer 2021)		
<ul style="list-style-type: none">Implemented support for a new type of device; software update the headset through the application for iOS		
iOS Developer, Middle	CitrusDev	Summer 2019 – Autumn 2020
NHS analog app		
<ul style="list-style-type: none">Implemented tracking covid symptoms system; notification about potential health dangerous		
Announcement app		
<ul style="list-style-type: none">Implemented quickly creation publication; 1-to-1 chat with the user and seller		
iOS Developer, Junior	Syject Company	Winter 2019 – Summer 2019
Haircut app		
<ul style="list-style-type: none">Implemented maps for finding near by located masters; calendar for managing available time; system for approving or declining incoming requests		
iOS Developer, Trainee	TAC Team	Fall 2018 - Winter 2019
Multi-User student learning app		
<ul style="list-style-type: none">Implemented study process tracking system; new UI		
Flashcards app		
<ul style="list-style-type: none">Implemented zoom for open PDF files		
Currency app		
<ul style="list-style-type: none">Implemented support for a new type of currencyRedesigned part responsible for the currency		

EDUCATION

Kharkiv	National Technical University "Kharkiv Polytechnic Institute"	Fall 2013 – Winter 2018
<ul style="list-style-type: none">M.S.E. in Measuring Systems and Devices, 2018. GPA: 3.6B.S.E. in System Engineering, 2017. In-major GPA: 3.4		

TECHNICAL EXPERIENCE

Projects

- Multi-User MyDictionary App** (2021). The platform allows user to create their own dictionaries with words of interest in different languages and synchronize them between iOS devices. Swift, Core Data, Java, Spring Boot, Docker, Google Cloud
- Multi-Platform log parser** (2022). The tool allows opening the file, searching the date, and sorting logs between the start and end dates by categories (device, analytics, unknown). Time processing $O(n^2)$. JavaScript, HTML
- Multi-Platform log analyzer** (2022). The tool allows analyzing logs and provides root cause problems with a set of hint answers for the helpline. Time processing $O(n^2)$. JavaScript, HTML
